MELFRED U. BERNABE

Antipolo, Rizal • 09655310035 • melfredbernabe7@gmail.com • https://melfredbernabe.me/

EXPERIENCE

Co-Founder & Chief Experience Officer (CXO) @ Listo *Mar 2026 - Present*

- Co-founded Listo (formerly SkillSeed), a climate participation platform enabling users to complete missions, join community challenges, take quests, and access funding opportunities.
- Owned the full product experience, UX flows, and UI design, ensuring a consistent experience across missions, community, and funding sections.
- Drove product structure and direction from early-stage beta through official startup launch.

Machine Learning Intern @ FlyRank AI Jul 2026 - Present

- Selected for the Machine Learning track of FlyRank AI's global internship program out of applicants from 130+ countries.
- Completed a self-paced curriculum through live mentor-led sessions covering AI fluency, research and verification, marketing and advertising, and AI-assisted engineering workflows (Harness Engineering).
- Built and submitted a Python capstone project for the program's Bosnia Challenge, deployed on Vercel.

Eskwelabs Innovation Fellow @ Eskwelabs August 2026 – Present

- Selected for Cohort 11 of the Eskwelabs Innovation Fellowship (EIF), focusing on AI Solution Development under the Data Innovation track.
- Collaborating with a cross-functional team under an Agile workflow, with regular check-ins to plan and track progress on data innovation projects.

PROJECTS

Listo - Climate Participation Platform *Mar 2026 - Present*

- Built a full-stack web platform enabling users to complete climate missions, join community challenges, take quests, and access funding opportunities
- Developed using React, TypeScript, Vite, Supabase, and Tailwind CSS, deployed on Vercel

Bankero - Decentralized Credit Scoring & Micro-Lending Platform *Jun 2026 - Present*

- Built a decentralized credit scoring and micro-lending platform on the Stellar network using Soroban smart contracts, a React/TypeScript/Vite frontend, and Supabase, successfully deploying 4 live contracts to Stellar Testnet
- Designed an on-chain credit scoring system that aggregates repayment history, wallet activity, community vouches, and GCash/Maya remittances, enabling unbanked Filipinos to access peer-to-peer micro-loans without a bank account

SKILLS

- Community & Relations: Partnership outreach and coordination with organizations, professional correspondence and email communication
- Organization & Support: Event documentation and scheduling, coordinating startup pitch events and team logistics, Logo design, creative/brand materials creation
- Soft Skills: Communication, initiative, adaptability

TECHNICAL SKILLS

- **AI/ML:** NumPy, Pandas, Machine Learning, AI Fluency, Prompt Engineering
- **Blockchain & Web3:** Web3.js, Stellar SDK, Soroban Smart Contracts, Freighter Wallet
- **Cloud & Deployment:** AWS (EC2, S3, Lambda), Google Cloud, Vercel
- **Cybersecurity:** CIA Triad Principles, Penetration Testing Fundamentals, Prompt Injection Attack Prevention
- **Automation:** Zapier, n8n, UiPath, Workflow Automation
- **Backend & Databases:** Node.js, Express, FastAPI, PostgreSQL, Supabase, Firebase

EDUCATION

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES 2025 - 2029
Bachelor of Science in Computer Science major in Cloud Computing *Sta Mesa, Manila*

CERTIFICATIONS & TRAINING

- **2x AWS Certification** - Amazon Web Services (Issued July 2026)
- **ISC2 Certified in Cybersecurity** - ISC2 (Issued Aug 2026)
- **Google AI Professional** - Google (Issued Feb 2026)
- **CCNA Cisco Certified Network Associate** - NexusCloud IT Solutions Training (Issued Dec 2025)
